

Associate/Adjunct Faculty

Ankush Agarwal Econometrics	Lalan Kumar Brain Computer Interface, Microphone Arrays
Prabhu Babu ML, Bioinformatics, Signal Processing	Amit Mehndiratta Medical Image Processing, Rehabilitation
Amitabh Bagchi Probabilistic Modelling, Social Networks	Aparna Mehra Optimization Theory
Arpan Chattopadhyay Reinforcement Learning, Wireless Communication, IoT	Mani Mehra Wavelets Methods, Numerical Methods
Tapan K Gandhi MNeuroscience, ML, Assistive Technology	Preeti Ranjan Panda Embedded Systems, Memory Management
Ashwini Vaidya Computational Linguistics, Cognitive Science	Kolin Paul Affordable HealthCare, Embedded Systems
Gourav Ghatak Stochastic Geometry, MMWave Communication, 5G	Maya Ramanath Database Systems, Information Retrieval
Nitya Nand Goswami Nanoscience, Nanotechnology	Manoj C.Ramteke Meta-Heuristic Algorithms, ML
Agam Gupta Computational Social Science, Digital Platforms Management	Manabendra Saharia Water & Climate, Hydrologic Modeling
Ishaan Gupta Bio Informatics, Genomics	Smruti Ranjan Sarangi ML, Accelerator Design, Low Power Processor Design
M. Ali Haider ML for Chemistry, Simulations	Rijurekha Sen Mobile And Embedded Computing, Sustainability
Jayadeva ML, Neuromorphic Engineering	Sandeep Sukumaran Climate Modelling, Climate Change
Tarak Karmakar ML, Simulation, Molecular Dynamics	Shaurya Shriyam Simulation Modelling, Optimization
Aaditeshwar Seth Environment monitoring, Natural resource management	Anup Singh Healthcare, ML, Medical Image Processing
Biswaroop Mukherjee Biomechatronics, Ultrasound Imaging	Rohit Vaish Computational Social Choice, Game Theory
Deepak Agrawal DNA Nanotechnology, Dara Assimilation	Manan Suri Hardware Design, Neuromorphic Computing, Edge Computing
Kaustubh Beedkar Scalable data analytics, Data Federations	Bijaya Panigrahi Power Quality, Soft Computing
Priyanka Golia Trustworthy and Explainable AI	Brejesh Lall Signal Processing
Tarun Mangla Computer Networking	Husain Kanchwala Vehicle system dynamics & control, Applied Mechanics
Sumitava Mukherjee Human view about AI	Kavya Dashora ML, AI in food
Adarsh Barik Machine Learning, High-Dimensional Statistics	Dinesh Kalyansundaram Micromachining of materials, Product Design
Vijay Keswani Data & Tech ethics, Algorithmic Fairness	Ravi Krishnan Elangovan Single Molecule Biophysics
Indrajit Bhattacharya (Adjunct) Natural Language Processing	Gokulnath Thandavarayan Vehicle-to-Everything (V2X) Communications, Next-generation Wireless Communication (5G/6G)

Highly Collaborative Environment

Collaborations with Academia:
40+ global institutions including AIIMS Hospital, Allen AI, CMU, McGill, Imperial College, Northwestern, UT Dallas, KAIST, NTU, Singapore, UIUC, UCLA, UBC Vancouver, UC, ...

Collaborations with Industry:
Google Deepmind, IBM Research, Microsoft, Nokia, BASF, ISRO, BARC, Huawei, TCS Research, Wipro, Domino's Pizza, nVidia, Schlumberger, Siemens, Flipkart, Cadence, Swiggy

14 AI startups in collaboration with ScAI faculty

Core Faculty

Sumeet Agarwal Machine Learning, Cognitive Science, Healthcare	Arambam James Singh Reinforcement Learning, Multi-Agent Learning
Sudipan Saha Computer Vision, Earth Observation, Climate AI	Bhaskar Pratim Mukhoty Robust Learning, Spiking Neural Network
Raunak Bhattacharyya Reinforcement Learning, Autonomous Systems	

Joint Faculty

Mausam Natural Language Processing, Machine Learning	Hariprasad Kodamana Energy, Environment and Sustainability
Chetan Arora Computer Vision	N.M. Anoop Krishnan AI for Science, AI for Materials
Srikanta Bedathur Knowledge Discovery, Data Mining, Natural Language Processing	Sandeep Kumar Optimization, Graphical Models
Souvik Chakraborty Deep Learning, Digital-Twins	Rohan Paul Robotics, Embodied AI, Planning
Arpan Kumar Kar Social Media Analytics, Information Management	Anurag Singh Rathor Continuous Processing, Data Analytics, Medical Imaging
Parag Singla Machine Learning, Neuro-Symbolic AI	Tanmoy Chakraborty Natural Language Processing, Machine Learning
Sitikantha Roy Soft Robotics, Biomechanics, Healthcare, Scientific Machine Learning	Sayan Ranu ML for Graphs, Bioinformatics

Prominent National and International Awards (Recent)

Students Recognitions

- Prime Minister's Research Fellowship - 3
- Google PhD Fellowship - 1
- TCS Research Scholarship - 3
- NeurIPS 2025 Weak Lensing ML Uncertainty Challenge Winner - 1

Yardi School of Artificial Intelligence

Indian Institute of Technology Delhi
Room No. 512, 5th Floor, Academic Complex East (99C)
HauzKhas, New Delhi - 110091, India

More details: Contact Prof. Parag Singla (Head) at hodscai@admin.iitd.ac.in

YARDI SCHOOL OF ARTIFICIAL INTELLIGENCE Yardi ScAI

Indian Institute of Technology Delhi

<https://scai.iitd.ac.in>

The Yardi School of Artificial Intelligence, established in 2020 at IIT Delhi, is focused on strengthening education as well as foundational and applied research in AI, ML and Data Science.

Current Funding

~ ₹ 100+ CR

of flexible Alumni Funds for building the School

~ ₹ 136 CR

of Govt. of India funds to make a large AI Supercomputer Cluster

~ ₹ 20 CR

of research funding in AI, and AI applied to Healthcare, Banking, Commerce & other Societal/Industry problems.

Education Activities

45

PhD Students

29

Master of Science (Research)

31

Masters of Technology

Students from all Engineering & Science disciplines are welcome with 4 year degree, as long as they have necessary skills to do research in AI.

Research Foci:

MULTIDISCIPLINARY APPLICATIONS

Healthcare, Material Science, Industry 4.0, Security, Law, Policy, Finance, Robotics, Climate, Transportation, ...

BRIDGE

Computer Vision, Natural Language Processing, Knowledge Graphs, Videos, Multimodal AI, ...

CORE

Machine Learning, Deep Learning, Reinforcement Learning, Data Science, Multi-agents, Logic-based AI, ...

FUNDAMENTALS

Optimization, Linear Algebra, Probability & Statistics, Learning Theory, Hardware for AI, ...

Interested in a Faculty Position in India?

Yardi ScAI is hiring Faculty Members, who specialize in AI, ML, DS and/or the use of these technologies to other disciplines. The parent scientific discipline of the candidate does not matter, as long as there is expertise in AI technologies and there is passion for their broad impact.

Why join Yardi ScAI?

- Dynamic Multidisciplinary Research Environment encouraging real impact of AI Research.
- Param Pragya 5 AI peta-flop (~400 GPU) Supercomputer Cluster for AI.
- Young Faculty Fellowships to supplement young Faculty Member salaries.
- Upto 20% consulting time with Industry.
- Competitive Startup and Matching Grants.
- Additional Travel Grants to ScAI Faculty for presenting papers at top AI Venues.
- Additional Professional Development Allowance to ScAI Faculty.
- Strong seed funding for new high-impact research activities in AI.

Vision of Yardi ScAI

A 360° Impact: to provide a single platform Students, Faculty Members, Industry, Non-profit Organizations and Policy Makers, who share the common goal of making India an AI-powerhouse.

Mission

Build a Dynamic Research Environment
